LETTER FROM THE PRESIDENT & EXECUTIVE DIRECTOR

As Sunbeam continues to grow and to add more services, we feel it's important to look back and honour the past so that we can more fully embrace the future.

From our humble beginnings in 1956 when Peter and Joanna Vos opened their home to one child with developmental and physical disabilities to where we are today – a multi-faceted organization providing services and supports to thousands of children and adults with disabilities, and their families – Sunbeam's commitment to those in service has never wavered. As an organization we have, and will, continually shift our services to try and meet the needs within our communities.

In honouring our past, we want to showcase the stories of several of our long-standing employees in this Annual Report. As an agency we are blessed with loyalty and commitment of our people. Twenty-four individuals have worked for Sunbeam Centre for more than twenty-five years, with one person dedicating more than forty-five years! It is not only staff who have been a part of our Sunbeam family for many years, we are also blessed to have twenty-five individuals that have been supported by Sunbeam for more than

25 years. What does the future hold?
Still more change.

We know there are big changes coming to how autism services are funded and how they will be provided to children in Ontario. And we will respond. Despite the need, we understand that the Health Ministry will not financially support an adult respite service at Sunbeam Centre. And we will respond. We know that the provincial budget will impact families and agencies in the developmental services sector. And we will respond.

Our commitment to our community is to dig deep for creative yet sustainable solutions to the growing needs and challenges within our sector. We won't always be able to solve every challenge, but we will continue to bring our best to the table and work alongside individuals, families, donors and the community to create communities where people of all abilities are valued.

ERIKA TRAUB

President

BOB BUTELLA

Executive Director

FROM PAST TO PRESENT

The Progress We Have Made

The Sunbeam organization has changed tremendously over the years. We started with a single location in Kitchener, Ontario in 1956 serving one child with complex medical needs to today having multiple locations, spread over several counties, serviced by 3 separate service divisions that offer a wide variety of supports to the individuals and families within those communities. We are proud of our humble beginnings and stand on the shoulders of the love and care that created the first location in Kitchener. We are equally as proud of being an organization selected by the province, to take on new service areas over the years.

The Community Living division of Sunbeam is the division that most resembles our beginnings. It is the foundation in which we have been able to grow and thrive. The second division of our organization was Developmental Services Resource Centre (DSRC). This division has gone through several iterations over the years, each change better supporting the community and individuals and families. Developmental Services Ontario Central West Region (DSOCWR) is the newest department of Sunbeam. A part of the Developmental Services Ontario system, Sunbeam was selected to serve Waterloo Region and beyond, increasing our service area significantly.

In 2018:

**90 PEOPLE LIVED IN
OUR RESIDENTIAL CARE**

**19 INDIVIDUALS ATTENDED
DAY PROGRAM DAILY**

**22 ADULTS AND 7 CHILDREN
RECEIVED RESPITE CARE**

**WE SERVED 5 COMMUNITIES
IN 15 LANGUAGES**
DSOCWR

**16 RESIDENTIAL LOCATIONS WERE
OPERATIONAL, WITH ANOTHER ON
THE WAY IN 2019!**

**WE SUPPORTED 4,000 PEOPLE
AND REGISTERED 11,000 PEOPLE**
DSOCWR

PROGRESS MADE

Medical to Biopsychosocial Approach

We began with nursing staff and a medical focus that became the foundation of the health supports we offer today. Now, we adhere to a biopsychosocial approach - we recognize that a person's health is critical for a positive quality of life in every other area and that individuals' psychological and social wellbeing affects their health.

Growth and Expansion

In 1984, we served 126 children in our facility at Kingsway. Today, we serve approximately 90 children and adults in our residential programs across the region. Our main building no longer serves as a primary residence for anyone. In 1984, we offered parent relief, but did not offer a day program at that time. Approximately 45 people participate regularly in our on-site day program at Kingsway. Finally, our range of services has expanded both in number of staff and types of services offered (e.g. Ontario Autism Program, Coordinated Service Planning, Fetal Alcohol Spectrum Disorder Coordination, Passport Program).

Proud to Be Your Neighbour

In our earliest efforts to open group homes in the region, we encountered a great deal of resistance. Our program in St. Jacobs met incredible opposition from neighbours and citizens who were concerned about the impact of group homes on property values and what kind of neighbours we might be. Today, we live in a supportive community that believes people with disabilities belong in and are an important contribution to their community.

*Jonas in the
Adventure Room, 2019*

from infancy to
part of our
can not be met
variety of place-
; long and
parent relief

Treating the total needs of the child requires the talents of a multi-disciplinary team consisting of: nurses, psychologist, social worker, physiotherapist, mental retardation counsellors, speech and occupational therapist, recreationalist, nutritional services, nurse aides and volunteers.

WHAT WE'LL NEVER CHANGE

Our Dedicated Staff & Commitment to Care

We are delighted to have great people working at our agency, dedicated to the people and families that we serve. We value and love each life we touch and believe very much in helping people achieve meaningful quality of life.

"One-Stop Shopping" Experience

When families enter the doors of DSRC or DSOCWR, they are provided with information on all services they can access, including community and financial supports, as well as recreational opportunities. There is always someone members of our community can call for support and resources.

Specialized Services at Sunbeam

Since 1984, Sunbeam has had social workers, physiotherapists, speech and language therapists, occupational therapists, and other specialist services. Since then, many of these services have moved to Developmental Services Resource Centre. Over the years, our agency has expanded dramatically to meet the needs of our community in a variety of innovative and flexible ways.

PROGRESS TO COME

More Collaboration

We will see stronger internal and external collaboration on training and development, expansion opportunities, and developing new, flexible service options that respond effectively to people's goals and needs. No department is an "island"; we can accomplish much more if we continue to work effectively with others and take advantage of the capacity that exists in our agency and community.

Getting Technical

Of course, we're already responding to technical advances, but we plan to continue to adapt to new ways of communicating.

Sunbeam is Here to Stay

There is so much to be proud of from our past and present - in our ability to grow, transform, and respond to the needed changes in our industry and individuals we serve. We will continue to be creative, yet strategic and planful in the ways we meet what the future will require. As always, our focus is and will be on bringing the best, caring, dignified approach to our services today and into the future.

MORE THAN A CHAIR

**WHEELCHAIRS USED TO BE MADE
WITH A ONE-SIZE FITS ALL MENTALITY.
TODAY, WHEELCHAIRS ARE CUSTOMIZED
FOR EACH INDIVIDUAL.**

As I walked into the seating clinic, which is held monthly at Sunbeam Centre, I witnessed Sheila Buck working with Jude, age 14, to finalize a custom fitting for the seat of his wheelchair. Sheila directed the positioning and molding of the system by gently holding Jude in a proper posture, while the other technicians molded a bag full of Styrofoam beads in around Jude's body. When the proper shape was captured, all the air was removed from the bag to hold the shape.

The appointment had begun with an assessment of Jude's current posture. Sheila determined what could be corrected to optimize his breathing, eating and spinal alignment as he sat in his chair. As the technicians finalized the molding of the chair, Sheila said to Jude's mom, "Can you see, now his head is up and he is looking around more?" We all saw that, and it was thanks to the proper positioning of the custom mold which optimized his seating. Working with seating in this way is really working against gravity - gravity always takes over. When a person sits in a chair for a long period of time without the ability to shift their posture on their own, gravity will push their spine and pelvis into compensatory angles and curves

Images to the left - Jude's wheelchair, 2018

*Image above - Assembly of
foam replacement seats, 1983*

Right - Sunbeam Centre in the 1970s

which compromise their health and sitting posture. The average life span of a wheel chair is 5 years while seating may need to be replaced every two years due to changes in posture or pressure. Other supporting products are walkers, standers, shower seats and commodes.

Jude is one of Sunbeam's shared respite clients. It was suggested by the staff at Sunbeam and Jude's parents that the time was coming for a review of his current wheelchair, as it was showing wear and tear and he was growing out of it. The first stage of the assessment goes to Ibrahim Eblan (Abe), Sunbeam's Complex Care Coordinator who is responsible to identify client needs related to new chairs, and coordinate all the bookings between the clients and the Occupational Therapist here at Sunbeam Centre. He supports the process from start to finish. Abe identified there was a need for Jude to have his current seating looked at and scheduled the appointment with Sheila.

Sheila is an Occupational Therapist and has been actively working in the field of seating and mobility for over 30 years. She provides consultation, assessment and treatment related to seating, mobility, accessibility and ergonomics, through her company Therapy NOW. Sheila has spoken at National and International seating conferences, and has published a book, "More than 4 wheels A Clinical Guide to Seating and Mobility". As well, she has completed training courses in Ontario & Alberta for Occupational Therapists. She also mentors local students. Sunbeam Centre has had the privilege of working with her for the past 19 years.

Shelia shared with me that she feels a sense of satisfaction when the seating system is completed and delivered, knowing it will improve function, comfort and happiness in all activities of daily living that the recipient does moving forward.

OUR VOLUNTEERS

The Volunteer Department at Sunbeam Centre has changed quite a bit over the years. What once was very informal is now formalized. The process of becoming a volunteer is now as complex as attaining paid employment - with applications, interviews, and record checks.

This formalization means our volunteers are skilled, professional, and dedicated to the individuals we serve. Our volunteers also benefit from networking and receive professional experience, training, and references.

In 2018:

**124 PEOPLE VOLUNTEERED
WITH SUNBEAM CENTRE**

FOR A TOTAL OF 3500 HOURS
(Approximation)

CHRISTIAN (CHRIS) has volunteered with us since 2015. He has dedicated over 1000 hours of service in our Day Program. Chris volunteers twice a week and helps staff to provide meaningful programming for the people we serve. Chris has planned crafts and led many activities - many influenced by his Argentinian background!

These volunteers, like all of our volunteers, have been building relationships and making a difference in the lives of the people we serve!

ZED is a music performer volunteer that started with us in June 2018. He is a very talented pianist who consistently plays on Saturdays at Sunbeam. Zed is also very generous. He recently donated half of his winnings from a recent piano competition to Sunbeam Centre.

DAWID is a student who chooses to make a difference in his neighbourhood by volunteering at a group home as a Friendly Visitor. Dawid didn't come to us with a lot of experience or knowledge of this role, but he has made a huge impact with his dedication and patience. He began in this role to complete his mandatory 40 hours of volunteering for high school graduation, but has long since surpassed this and continues to support his group home.

*We are grateful for all of our volunteers.
Thank you for all that you do!*

*as of May 2019

“ALWAYS REMEMBER WHERE YOU CAME FROM. YOUR PAST IS THE BEGINNING OF YOUR HEARTBEAT, THE THUMB OF YOUR SOUL.” -CRYSTAL BLANDSHAW

“The people who participate in our programs and their families have the same goals and dreams as everyone else’s: to be loved, to be accepted, and to share a sense of connectedness and belonging. What that looks like for each person varies. But knowing that the people around us care about us and value us for who we are just seems so intrinsic to who we are as human beings.

I have spent time in our different programs, no matter where they are or what they offer (DSRC, DSO, group homes, respite, or day programs), I have been honoured to work with colleagues who believe in what they do, and who never forget that we are all here for the same reason: because we believe in the folks we support, their families, and in our community as a whole.”

GARY WHETUNG
Community Living, Director - 20 years of service

“When I think of Sunbeam, I feel we are a pillar of the community. We continue to grow and develop new programs and services that are respected and sought after within our community. Our expertise in supporting people with behavioural and medical needs is second to none and we should celebrate how we continue to change peoples lives on a daily basis. I am very proud to say that I work for Sunbeam Centre and I look forward to being apart of what lies ahead and the new and innovative programs we continue to develop.”

CAROLE VANDERVOORT
Manager, Community Living - 35 years of service

SHERRY BARROW *Profile*

Sherry Barrow has worked with Sunbeam Centre for 45 years now. We pride ourselves on the longevity of staff tenure, but we think 45 years is definitely worth celebrating!

We asked Sherry to reflect on her years with us. As you can imagine, many things have changed in Sherry's time at Sunbeam - including her role and responsibilities. It wasn't always easy to adapt to the changes, but teamwork, support, and time made everything accomplishable and manageable.

While many things have changed, some things remain exactly the same - the love, care, and support of the staff for the people we care for and for one another. Sherry said one of the first inspiring things she recognized about Sunbeam Centre was how pleasant all the staff were and how well they worked together. The emphasis is, and always has been, on the people we care for here at Sunbeam Centre.

Sherry remembers Pieter Vos, the founder of Sunbeam Centre, sharing that his emphasis when hiring was not on how much education people had, but how nurturing they were. You must have compassion, understanding, and patience always.

Sherry said it best when she said,

"I'M READY FOR RETIREMENT, BUT I'LL ALWAYS LOOK BACK AT MY YEARS AT SUNBEAM FONDLY. I'VE MADE A LOT OF GOOD FRIENDS AND HAVE LOVED SO MANY KIDS. I'VE HAD A VERY GOOD LIFE AT SUNBEAM."

DAVE OTTO *Profile*

Dave Otto, currently Director of Finance at Manulife, first became a board member in 1992. When he accepted the position, he was in his 20s and not familiar with Sunbeam Centre or the complexity of the services we provide. In his words, he was "young and naive" - not previously aware of the level of care required for our residents.

Mr. Otto said, "It takes a special person to do this work and we've got some good people at Sunbeam." The specialized, dedicated care that each individual received from Sunbeam Centre employees was inspiring to Mr. Otto. He is most proud of all the group homes he has seen open in his years at Sunbeam Centre, "it's been the greatest feeling - providing a better quality of life and an improved living experience in [Sunbeam group homes]."

One of his hopes for Sunbeam Centre is to find additional funding to provide more services for the community at large - primarily, respite care. "People in our community need help and we can't afford to [always] give it to them. There isn't enough space. We want to be able to help parents and caregivers in our community who need this service." Because of the strength of the board, with so many perspectives and knowledge bases, and the board's emphasis on keeping true to Sunbeam's mission and values -

MR. OTTO KNOWS THE FUTURE OF SUNBEAM IS BRIGHT.

HOSPITAL CARE

Every individual, every time, every hour supported – No fear, no confusion. That is our moto or our fundraising campaign for 2018 & 2019. This campaign is to raise awareness and dollars for Sunbeams Hospital Care program. This program has been rolling out over the last few years and this past year we took the steps to make sure it stays in place as the service is extremely necessary. This service has not and is not currently funded.

The Hospital Care Program is to support residents of Sunbeam when they are hospitalized. The program ensures the following:

- > When a resident of Sunbeam Centre is admitted to hospital, staff quickly get in contact with the individual's family to set about identifying if and when family members will be able to be present in the hospital, and what times would be ideal for a Sunbeam staff member to support the individual.
- > All of Sunbeam's residents are provided with individualized support during their hospital care. The support will assist with;
 - » Communicating and understanding the resident's needs, preferences, personality to the doctors, nurses and PSW

- » Press the button to call for help or assistance when needed. Express pain etc.
- » Support to move around; the majority use the support of wheelchairs, and supportive positioning aids to even lie comfortably/ safely in a bed. They use specific cushioning and wedges to elevate their head or other parts of the body to promote proper breathing, body mechanics etc.
- » Help to eliminate stress, outbursts, aggression and other emotions due to the lack of understanding of where they are and what is being done for them
- » Support the quality of care that hospital staff can provide
- » Hold their hand, provide a comforting touch

Sunbeam has a vested interest in continuity of care, as a gap can lead to discomfort, and other negative repercussions. Unfamiliar faces and surroundings could lead to anxiety, mistrust, miscommunication, loneliness, and many other emotions.

Sunbeam Centre is determined to ensure that none of the individuals we support, when admitted to hospital, are left only to the care of hospital staff.

Left: Classroom, 1981-1984
Right: Van, 1982-1983

It is vital for these individuals to successfully return to health, is that routines remains in place as much as possible, and that the activities they have come to expect during the course of a day can continue. This consistency of care and familiar faces also supports the recovery during hospital stay.

For a Sunbeam Resident, having a familiar face supporting them during a hospital stay is comforting, and lets them know, in a very real way, that they are valued. Knowing that their loved ones are not alone provides peace of mind for families who are not able to be there during hospital stays. Making this area of care a priority is essential for the commitment to care that Sunbeam is determined to deliver always.

**OUR HOSPITAL CARE PROGRAM -
FUNDRAISING GOAL FOR 2018/2019
IS \$106,000.**

**AS OF MARCH 31, 2019 WE HAVE
RAISED \$76,225.00**

Testimonial to how our Hospital Program is making a difference in the lives of our residents. Here is an email received in March 2019 from a family member to our Executive Director;

Lisa has been in hospital before when she has been at Sims. It was a time when my wife and I as well as occasionally some relatives would visit to help her pass

the time and to cheer her up. Sometimes one or more staff would come to visit her but this was the exception rather than the rule.

Coming full circle to her latest hospitalization and the change in the participation on the part of Sunbeam administration and staff was a revelation to behold. They took complete control of Lisa's admission, her time there as well as her discharge. Many administrators went to visit her in hospital as well as daily visits from the staff of both her home and day program.

The participation on the part of Sunbeam was certainly a factor in Lisa's positive attitude and her recovery in very trying circumstances. As a parent, I certainly appreciated my time away from visiting her knowing that she had someone whom she trusted and had a very positive relationship with (in essence her family at Sunbeam) was coming to visit it.

Congratulations on conceiving and implementing this program, it makes a tremendous difference in the lives of those living at Sunbeam and the lives of their families.

Thank you all!!! Please pass on my thanks to all of those who visited Lisa while she was in hospital.

Mark Jaglowitz

Lisa was in the hospital for 20 days. It is proof that additional care while in hospital is both instrumental to the recovery of the individual but also a tremendous reassurance to families when they are not able to stay full time at the hospital.

You, and others like you, have the ability to help us fulfill this need. We are all part of one community and everyone deserves to receive the same love and care as you want for your sister, son, cousin or neighbour. If all people are to receive equal health care, it is essential for this additional support to be available. Please partner with us on this worthwhile journey. Countless families will rest easier, and the lives of Sunbeam's residents will be profoundly impacted by your generosity.

Should you want to support our Hospital care program, please reach out to us at

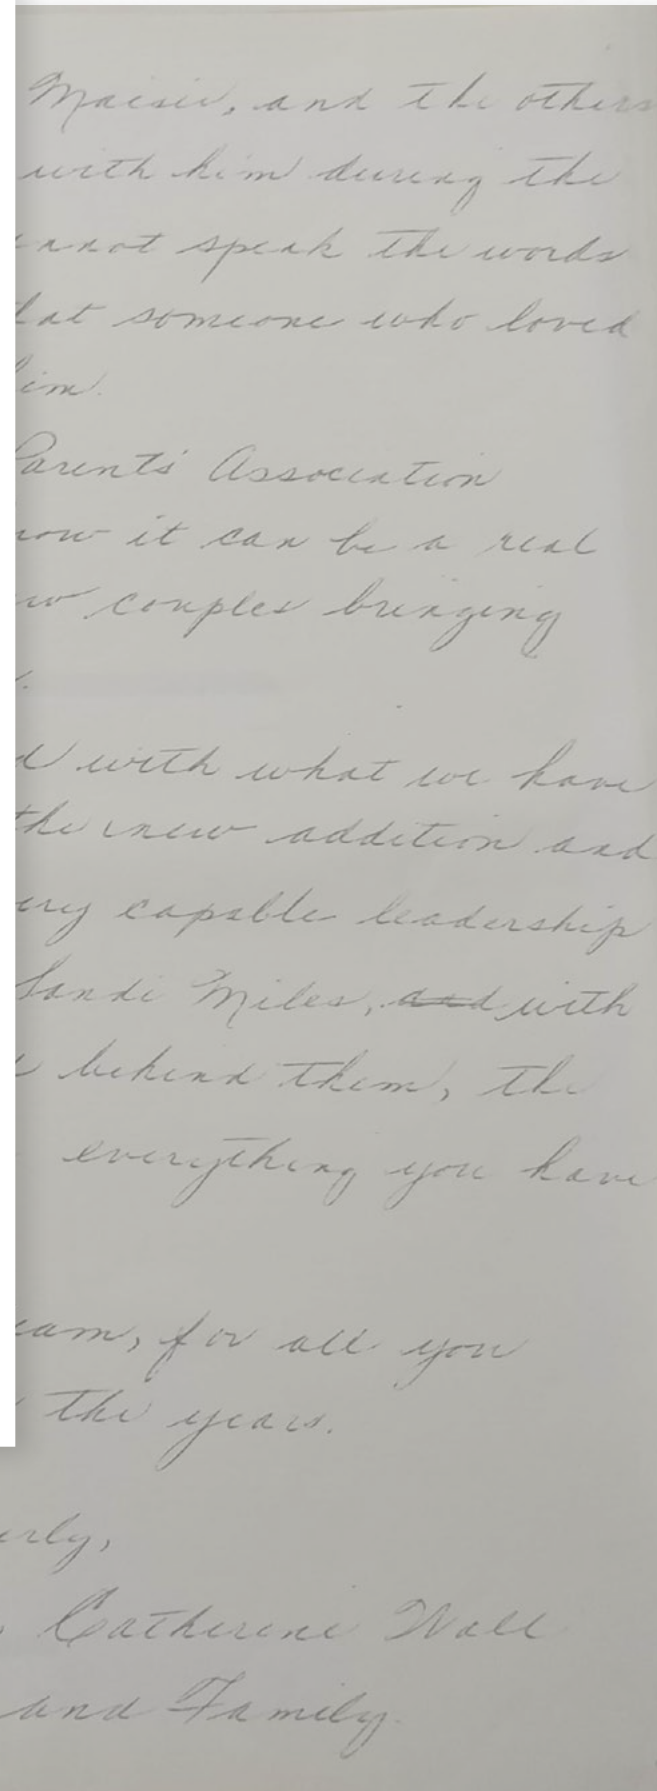

FUNDRAISING@SUNBEAMCENTRE.COM

or go to our website to donate -

WWW.SUNBEAMCENTRE.COM/DONATE

when you make your donation you will direct your donation to Hospital Care Program.

THANK YOU

Donor Highlight

SAVVAS CHAMBERLAIN FAMILY FOUNDATION

We are very grateful for organizations, like The Savvas Chamberlain Foundation, who support the work we do at Sunbeam. The Savvas Chamberlain Family Foundation supports Community Causes and Projects in and around Waterloo Region. The Foundation was established in 2011 by Dr. Savvas Chamberlain. The Foundation provides funding to a broad range of registered local, provincial and national charitable organizations annually on a case by case basis at the discretion of the Foundation. The Foundation does not solicit or accept donations externally; it is funded entirely by the Chamberlain Family. Operational and overhead expenses are closely monitored so that they are kept to a minimum and cover only essential tasks. The foundation supports the following programs that are focused on:

- > people & community
- > environment
- > art & culture
- > health & well-being
- > education

The Foundation believes that “giving begins in the places we live and work and our Foundation envisions a community where all people feel a sense of belonging. We will support organizations in their effort to tackle society’s greatest challenges of improving the well-being of all and in their efforts to make our community stronger.” Thank you Savvas Chamberlain Family Foundation for your contributions to Sunbeam Centre to our community living and hospital care programs.
