

2025 Holiday Greetings from the Sunbeam Community

Season's Greetings from the Sunbeam Community,

As we approach the holiday season, our hearts are full of gratitude for the incredible community that makes our work possible. Each day, we are reminded that compassion, dedication, and partnership can change lives, and this year, thanks to you, we've seen that truth in action more than ever.

To our staff and volunteers, thank you for showing up with unwavering commitment, empathy, and resilience. Your work touches the lives of the people we serve in profound ways, offering safety, comfort, dignity and belonging to those who need it most. Even in challenging moments, your kindness shines as a beacon of hope for the individuals and families we serve.

To our supporters, donors, and community partners, your generosity continues to light the path forward. Whether through financial gifts, advocacy, collaboration or acts of service, you have made it possible for the Sunbeam Community to reach more people, provide more care and services, building a stronger, more compassionate community.

The holidays are a time for reflection and connection; a reminder of what truly matters: belonging, kindness, and shared purpose. Because of you, the individuals and families we serve have felt these gifts firsthand. Together, we have created moments of warmth and hope that will carry into the new year.

As we look ahead to 2026, we do so with optimism and gratitude. With the ever increasing demand for services across the communities we serve, there is still much to be done, but with your continued support and dedication, we know that lasting change and a brighter future is within reach.

From all of us at the Sunbeam Community, thank you for being part of this journey and helping us to realize our vision "Inclusive communities where people of all abilities are valued."

May this season bring you peace, joy, and the same sense of hope you help bring to others every day.

With heartfelt appreciation and warm holiday wishes,

Connie Smith
